

Lockheed Martin to Participate in Aero India Exhibition 2019

Posted On: 2019-02-15

Karnataka, Feb. 15 – Lockheed Martin will participate at the 12th Aero India Exhibition, to be held at the Yelahanka Air Force Station located here, Feb. 20-24, 2019.

The company participation in the premier biennial aerospace event in the country reaches back to its inception in 1996. This year, Lockheed Martin will present a selection of fixed-wing and rotary aircraft, precision weapon systems, as well as the Indigo unmanned aerial system which offers payload options and advanced ground control software, among others.

Lockheed Martin representatives will also participate in a number of showcases that reflect the work the corporation has undertaken with the India Innovation Growth Program (IIGP), which Lockheed Martin Co-founded over 12 years ago. These events include the Start-up Showcase and Drone Olympics.

Lockheed Martin will be located in Hall E, Stand E2.19.
