

## **Hawker Pacific Malaysia Appointed Falcon Authorized Service Center**

**March 22, 2017 (Saint-Cloud, France):** Dassault Aviation has approved Hawker Pacific's Kuala Lumpur, Malaysia facility as an Authorized Service Center (ASC) for Falcon 8X, Falcon 7X, Falcon 2000 EX Easy- and Falcon 900 EX EASy- series aircraft.

Located at the Sultan Abdul Aziz Shah Airport in Subang, the 36,000 square-foot facility is equipped to provide line maintenance services for both local and transient operators. It is ISO 9001:2008 certified as well as Part 145 Malaysian DCAM approved.

Maintenance approvals from the FAA and EASA are expected by mid-year. In addition to maintenance services, the facility can handle repair and overhaul, retrofits, modifications and upgrades, and accommodate 24/7 AOG (Aircraft On Ground) support, including a Go Team, complete with appropriate tooling and equipment.

As well as ensuring a local support capability for operators based in Malaysia, the agreement will provide an alternate maintenance option for Falcon customers at Hawker Pacific's Falcon ASC in Singapore.

"Strengthening our global ASC network is vital to Dassault Aviation's commitment to provide top notch local support for all Falcon customers, as evidenced by recent surveys that place the quality of Dassault support services at the top of the industry," said Jacques Chauvet, Senior Vice President Worldwide Customer Service. "And we're confident that Hawker Pacific's excellent service record and exemplary safety standards will maximize customer satisfaction for South-East Asian operators."

### **Notes for Editors**

**Dassault Falcon** is the recognized global brand for Dassault business jets which are designed, manufactured and supported by Dassault Aviation and Dassault Falcon Jet Corp.

### **About Dassault Aviation**

Dassault Aviation is a leading aerospace company with a presence in over 90 countries across five continents. It produces the Rafale fighter jet as well as the complete line of Falcons. The company employs a workforce of over 11,000 and has assembly and production plants in both France and the United States and service facilities around the globe. Since the rollout of the first Falcon 20 in 1963, over 2,400 Falcon jets have been delivered. Dassault offers a range of six business jets from the twin-engine 3,350 nm large-cabin Falcon 2000S to its new flagship, the tri-engine 6,450 nm ultra-long range Falcon 8X.

**About Dassault Falcon Jet**

Dassault Falcon Jet Corp. is a wholly owned U.S. subsidiary of Dassault Aviation, France. Dassault Falcon Jet markets and supports the Falcon family of business jets throughout North and South America.
