

MKU Press Release:

MKU INAUGURATES TECHNICAL RESEARCH CENTRE

CELEBRATES FOUNDER'S DAY

Kanpur, November 16th, 2013: MKU Private Limited, leading manufacturer and supplier of comprehensive ballistic protection solutions, for people and platforms) as well as electro-optic devices like Night Vision Devices and Day Optics, inaugurated a Technical Research Centre for research and development for new, innovative and versatile solutions in the field of ballistic protection. The inauguration of this state-of-the-art facility was part of the Founder's Day celebrations by the GKG Group to commemorate the birth anniversary of the founding member of the group, Late Sri Gopal Krishna Gupta (Babu ji), on October 13th.

MKU spends approximately 4.5% of its total turnover on research and development. In a constant endeavor to remain on the leading edge of technology, the company focuses on innovation as the key to survival of our soldiers whom they strive to protect in event threat scenario.

Mr. Surendra Gupta, Goldiee Masale and Mrs. Kiran Gupta (wife of late Sri Gopal Krishna Gupta) were the chief guests at the celebrations. Employees who have been with the group for over 10 years as well as those with distinctive service records were felicitated and awarded by the chief guests and other attending dignitaries.

MKU is one of the leading protection solutions manufacturers in the world. The company has over 25 years of experience working with the world's leading armed forces. With experience in providing protection to personnel, platforms and equipment, MKU has provided protection to over 1.5 million soldiers globally and has designed and delivered solutions for over 1500 platforms.

Headquartered in India, MKU has manufacturing facilities in India and Germany. The offices are further augmented with a wide network of exclusive MKU channel partners spread across the globe to provide localized sales and service support to our customers.
